EDUCATION

Tecnologico de Monterrey, Campus Monterrey

Monterrey, Mexico

B.S. in Computer Science and Technology, 7th Semester

Aug. 2023 – Jun. 2027

- **GPA: 97.6/100** | Academic Excellence Scholarship | **Top 1%** of the School of Engineering and Sciences.
- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Software Requirements, Computational Thinking, Software Construction and Decision-Making.

EXPERIENCE

Incoming Machine Learning Engineering Trainee

Sep. 2026 – Jan. 2027

Spoor AI

Oslo, Norway

- Selected for a full-time international ML engineering traineeship focused on **computer vision** and **video-based bird and bat tracking** for wildlife monitoring.
- Training scope includes curating **real-world evaluation datasets**, building **benchmarking frameworks**, and implementing state-of-the-art **multi-object tracking** methods across RGB, infrared, and thermal video.
- Will work primarily in **Python** with **AWS infrastructure** and production-scale labeled data while collaborating with the ML engineering team through code review, experiments, and technical reporting.

Junior Developer – Digital Transformation

Aug. 2025 – Aug. 2026

Tecnologico de Monterrey

Monterrey, Mexico

- Developed **Python automations** that reduced repetitive manual work and improved efficiency across administrative workflows.
- Built **HTML, CSS, and JavaScript** interfaces for registration, management, and tracking of internal vendor services.
- Developed a **sentiment-analysis dashboard** that transformed multi-campus survey feedback into actionable insights and visualizations for institutional decision-making.

PROJECTS

Aura – AI Financial Advisor for Banorte | *React, Node.js, PostgreSQL, Gemini AI*

Feb. – Jun. 2026

- Developed a **full-stack financial platform** with transaction monitoring, budgets, savings goals, investments, **AI-assisted reports**, and a contextual financial advisor.
- Contributed to **conversational UX** and user-centered financial guidance within a layered **frontend/API/services/AI/data architecture**.

MOVES – Accessible Voice-Controlled Chess | *Swift 6, SwiftUI, Speech, AVFoundation*

Feb. 2026

- Built an **accessibility-first Swift Student Challenge app** with **voice chess commands**, speech recognition, command parsing, move validation, audio feedback, and an opponent engine.

Machtia – Offline AI Education for Coffee Farmers | *SwiftUI, SwiftData, Supabase, Core ML*

Nov. 2025

- Served as **Scrum Master and iOS developer** for an **offline-first** native learning platform; implemented MVVM, SwiftData persistence, Supabase services, and on-device ML feedback.

GateGenius – AI Airline Catering Optimization | *React, Swift, Gemini AI*

Oct. 2025

- Built a **36-hour HackMTY prototype** combining demand forecasting, expiry tracking, workforce optimization, smart flight matching, and a Swift operations interface; modeled up to **78% food-waste reduction**.

AwaQ Tech – Environmental Biomonitoring | *Node.js, Express, MySQL, REST APIs, Unity*

May 2025

- Collaborated with NGO AwaQ to build a **full-stack environmental platform** for ecological reporting and biomonitoring; **led sprint planning and development** while contributing an educational Unity experience.

CrediFiel Datathon 2025 | *Python, SQL, TensorFlow/Keras*

Mar. 2025

- Analyzed **15M+ credit/payment records**, engineered client-level features, and experimented with **ML classification** to improve collection-strategy decisions in a 24-hour challenge.

LEADERSHIP

President – SEITC, Computer Science Student Society

Jun. 2025 – Jul. 2026

Tecnologico de Monterrey

Monterrey, Mexico

- **Represented the Computer Science and Technology student body**, serving as a liaison between students, faculty, academic leadership, and industry partners.
- **Led and coordinated the executive board** across technical talks, programming activities, company visits, networking, and community initiatives; SEITC was recognized as **Outstanding Student Society** at Orgullo CSE.

Additional Leadership: President, AJETEC Chess Student Group (2024–2025) | Peer Mentor, Tecnologico de Monterrey (2023–Present).

SKILLS

Languages: C++, Python, Java, JavaScript, Swift, SQL, R

Frameworks / AI: React, Node.js, Express, SwiftUI, SwiftData, TensorFlow/Keras, Core ML, Gemini API

Data / Tools: PostgreSQL, MySQL, Supabase, REST APIs, AWS, Git/GitHub, Cypress, Jest, Supertest, Vite, Oracle APEX

Spoken Languages: Spanish (Native), English (C1 – Pearson)
